Leading Missouri toward environmental sustainability through waste reduction and recycling

Missouri Recycling Association to Hold Annual Awards Luncheon

The Missouri Recycling Association (MORA) will be holding its annual award luncheon on September 12 in Independence, Missouri as part of its annual conference. A total of 7 award winners will be recognized with the Missouri Recycling Association's Achievement Awards.

The First Graders of Ralls County Elementary will receive the Next Generation Award in recognition of the 3,950 POUNDS of plastic bottle caps they collected for recycling. Because of their efforts, 10 benches made of recycled plastic will be distributed throughout the Ralls County School District campus and the three towns that make up the county: Center, New London, and Perry. With the support of Wiley Hibbard and Mark Twain Solid Waste Management District and NEMO Sheltered Workshop in Marion County, Ralls County Elementary provided the younger generation with the knowledge and tools to positively impact our environment by reducing, reusing, and recycling.

Since 1992 the Missouri Recycling Association has sought to lead Missouri toward environmental sustainability through waste reduction and recycling. Each year MORA recognizes companies, programs and individuals who have displayed dedication to this goal.
